

Show me yourself

Show me yourself

I'll rest my weary soul

I'll turn down the blind

I will close my eyes

Leave it all behind

Guess I know more than to long for a relief

Wonder where you are at this crucial time

When I'm on the edge like I've been ten thousand times

I sure do wanna leave, yeah, I wanna go home

But I'll stay if I know I'm not alone

Chorus:

Show me yourself

Give me some kind of sign

Show me your embrace

Don't ever let me go, no

No, no, no, no...

I was standing tall

I gave all my love

Fought against all odds

Not sure it's worth the while

Guess I know more

Than to long fore peace

I admit there was a time in my life

Thought I could beat this thing and come out alive

But I can't do this on my own, no way

Oh, please, please show me yourself

Chorus: Show me yourself...

Would you help me and be my friend at this time

Help me back again to the reason of mine

Chorus

Solo

Chorus
